

## **AUTOMA+ 2025** **on 24–25 November in Vösendorf**

**Digital innovation takes centre stage at AUTOMA+ 2025.**

Boehringer Ingelheim Pharma GmbH & Co. KG, Technological Partner of the Congress, hosts a workshop on digital plant modelling for pharmaceutical manufacturers: empowering production, innovation and sustainability.

The workshop highlights how advanced digital models manage operation and facility challenges, optimise workflows and support transfer and debottlenecking activities through real-world case analyses. Participants gain insights into the creation and utilisation of holistic plant models that transform manufacturing efficiency.

This interactive workshop features a closed-door format for up to 30 participants, including live demonstrations, technology showcases and hands-on exploration.

Dive deeper into the agenda and secure your place at AUTOMA+ 2025 on 24–25 November in Vösendorf, Austria: <https://sh.bgs.group/3a4>
