

Chemlink Specialities and Addi-Tec become HARKE UK

We are pleased to announce that as of 1 February 2024, Chemlink Specialities Ltd and Addi-Tec Ltd have merged and rebranded to become HARKE UK Limited Partnership.

Under the new HARKE UK brand, both companies will maintain their individual business units while expanding into new sectors. There will be six business units within HARKE UK:

- HARKE Chemlink – covering personal care and HI&I
- HARKE Addi-Tec – covering coatings, plastics and polymer ingredients and additives
- HARKE Pharma – covering pharmaceuticals
- HARKE Nutra – covering nutraceuticals
- HARKE Food – covering food ingredients
- HARKE Basechem – covering base chemicals and agrochemicals

Within each of these business units, we will offer distribution, formulation, reformulation, regulatory advice, micro testing, product sourcing, excellent customer service and marketing support to our principals. To our customers, we offer technical and service advantages at competitive prices. This strategic move aims to fulfill the diverse needs of customers throughout the UK, Ireland and across Europe by expanding the range of products and services offered.

Thorsten Harke, President HARKE GROUP

“This move will unite our team, open up the company to new divisions, and enhance the presence of HARKE GROUP within the UK, Ireland and across Europe.”

Jack Minister, Director HARKE UK LP

“HARKE UK will allow us to better position ourselves in the market through enhancing and expanding our product offerings, technical ability, market presence and contributions in alignment with our parent company the HARKE GROUP.”

We are excited to be working together as one brand to expand our service and product portfolios across the UK & Ireland, as part of our mission to drive innovation in the chemical distribution market.

ABOUT HARKE GROUP
