The next generation of Pharmaceutical Pretreatment Water Systems

The Biopuremax™ system is Reliable, Simple and Green

**ESR™**
Electrolytic Scale Reduction
- No waste brine
- No salt and no salt handling
- No organic resins - No biofilm
- No backwash or regeneration

**HOD™**
Hydrodynamic Optic Dechlorination
- No Active Carbon – no biofilm
- No SBS – no chemical handling
- Environmentally safe

**HWS**
Complete Hot Water Sanitization
- The optimal sanitization method
- The most straightforward and effective solution for killing bacteria
