GBA Laboratory Group is one of the leading service providers for laboratory and consultancy services in Germany and looks back on more than 25 years of laboratory experience in the fields of pharmaceutical products, foodstuff, environment and consumer goods.

Phytos Labor für Analytik von Arzneimitteln GmbH & Co. KG, Germany
LPU Labor für Pharma- und Umweltanalytik GmbH, Germany
ABF Pharmaceutical Services GmbH, Austria

GBA Laboratory Group

Our Services:
- Molecular weight determination by LC-Q-TOF-MS
- Identification and characterization of posttranslational modifications
- Amino acid sequence analysis by peptide mapping and LC-Q-TOF-MS/MS-analysis
- Protein aggregation analysis with SEC-HPLC
- Capillary electrophoresis
- Purity and assay analysis with RP-HPLC
- Determination of physical parameters (e.g. color, clarity, particles, pH)
- Small Molecules in the down-streaming process (e.g. poloxamers, simethicone, antibiotics)
- Residual solvent analysis by GC
- Long-term stability studies
- Microbiological testing
- Heavy metal analysis with AAS, ICP-OES, and ICP-MS
- Clinical trial supply (IMP handling, GMP/QP services, central lab supply)
